

Become a

Friend of Illinois-Indiana Sea Grant

You can help ensure that the latest science about southern Lake Michigan is in the hands of those who can make a difference. Your tax-deductible donation will support our efforts to empower southern Lake Michigan communities to achieve a healthy ecosystem.

Your donations can support student scholarships or help supplement a research project. If you are particularly concerned about invasive species, land use, water supply, or any of our other topic areas, your donation can be used to help our specialists change behavior. Or you can make a donation to our general fund and we will put your contribution towards our most pressing needs.

There are two ways to donate. If you would like to donate to our general fund, fill out the form on the back of this card and drop it in the mail with your check or credit card information. If you are interested in supporting a specific area or project, please call us. We are eager to hear your ideas.
